Safety Instructions

Safety instructions apply to operators and service personnel. Read these instructions before preparing the video game machine for play. Other safety instructions appear throughout this manual.

WARNING: TRANSPORTING THE VIDEO GAME MACHINE (VGM).

The VGM contains glass and fragile electronic devices. Use appropriate care when transporting. Avoid rough handling when moving the VGM.

WARNING: DISCONNECT POWER.

Always turn the power OFF and unplug the VGM before attempting service or adjustments unless otherwise instructed. Installing or repairing components with the power switched ON can damage the components and void warranty.

WARNING: GROUND GAMES.

Avoid electrical shock! Do not plug in the VGM until you have inspected and properly grounded it. Only plug into a grounded, three-wire outlet. Do not use a "cheater" plug, or cut off the ground pin on the line cord.

WARNING: AVOID ELECTRICAL SHOCKS.

This VGM does not utilize an isolation transformer. Internal cabinet AC is not isolated from the external AC line.

WARNING: HANDLE FLOURESCENT TUBE AND CRT WITH CARE.

If you drop a fluorescent tube or CRT and it breaks, it will implode! Shattered glass can fly eight feet or more from the implosion.

WARNING: CHECK POWER SELECTOR, LAMP.

Set the 115/230 VAC selector switch on the power supply for the correct line voltage on the installation site. Verify that the fluorescent lamps are rated for the proper line voltage.

WARNING: USE PROPER FUSE.

Avoid electrical shock! Replacement fuses must be identically rated to the original fuse!

WARNING: ATTACH CONNECTORS PROPERLY.

Be sure all connectors mate properly. If connectors do not slip in easily, do not force them. Connectors are often keyed and only connect one way. Check for correct orientation.

WARNING: POWER CORD REPLACEMENT. If the power cord is damaged or missing it must be replaced by an identical line cord as supplied by the manufacturer or authorized service agent.

WARNING: WATER JET. Do not install or operate game within operating perimeter of a water jet. Do not clean VGM using water jet.

WARNING: USE EXTREME CARE WHEN HANDLING PC.

The PC contains sensitive components such as a hard drive. Do not handle roughly. Call your distributor before servicing PC internal components. Ask about warranty information as it relates to the PC.

WARNING: HAZARD TO EPILEPTICS.

A very small portion of the population has a condition, which may cause them to experience epileptic seizures or have momentary loss of consciousness when viewing certain kinds of flashing lights or patterns that are present in our daily environment. These persons may experience seizures while watching some kinds of television pictures or playing certain video games. Peoples who have not had any previous seizures may nonetheless have an undetected epileptic condition.

If you or anyone in your family has experienced symptoms linked to an epileptic condition (e.g., seizures or loss of awareness), immediately consult your physician before using any video games.

We recommend that parents observe their children while they play video games. If you or your child experience the following symptoms: dizziness, altered vision, eye or muscle twitching, involuntary movements, loss of awareness, disorientation, or convulsions, DISCONTINUE USE IMMEDIATELY and consult your physician.

Setup and Operation

Product Specifications:

OPERATING REQUIREMENTS

ELECTRICAL POWER

Domestic 120VAC @ 60 Hz, 5 amps
Foreign 240VAC @ 50Hz, 2.5 amps

TEMPERATURE

32° F to 100°F
(0°C to 38°C)

HUMIDITY

Not to exceed 95% relative humidity.

Width = 39 inches (99.06 cm)

27-INCH MODEL SEAT SHIPPING WEIGHT

Weight = 125 lbs. (57.04Kg)

INSPECTION AND INSTALLATION

WARNING: Use extreme care when moving or servicing the game cabinet. Don't plug in the game until you have read this manual.

Please check the following after the game after the game has been removed from its shipping crate and placed in a suitable play or service area.

Make sure that the game cabinet is level. Adjust the casters as needed.

1. Check the AC line cord for any visible signs of damage to the plug or line cord insulation.
2. Check for possible shipping damage to the following:
 - Player interfaces: seat, handlebars, buttons, keypad and brake and shift levers.
 - Seat assembly.
 - Monitor glass.
 - Cabinet backdoor.
 - Cabinet coin door.
 - Cabinet and seat decals.
3. Remove the coin door key from the coin return chute.
4. Open the top coin door and locate the key for the backdoor and the cashbox.
5. Locate hardware kit. Included are: tamper proof tool kit, crossover network cable, line cord and seat hardware fasteners (8 sets)
6. Remove the backdoor the backdoor from the cabinet and visually inspect the electronic components.
7. Verify that all connectors are secure and that the bottom of the cabinet is free of loose objects, which may have possibly come loose during shipping.

Seat Assembly Procedure

WARNING: The cabinet is top heavy. Install only on level surface. Use the leg levelers to make sure the cabinet and seat are stable. Do not push against plastic parts during movement. Raise the shipping screws all the way up before game can be played.

1. Roll the cabinet and seat to the intended installation location. Make sure setup up area is suitable for your game operation. Allow for at least 3 – 4 feet of clearance from the bike for player and public traffic convenience and safety during game play. Allow for enough clearance from the backdoor for proper airflow. Do not block the air intake or exhaust vents located in the back of the game.

2. Position the seat base assembly so that it is aligned with the mounting holes in the lower main cabinet housing the monitor. Push the seat assembly forward to meet the mounting holes and find the four 1/4 -20 x 2" bolts and large flat washers provided in the hardware bag inside the cashbox. Make all necessary cable connections and ensure no wires are pinched during the attachment process.
3. Adjust all levelers until both cabinet and seat are flush and parallel with each other.
4. Tighten the screws firmly using a T-27 Torx tool.
5. Raise the shipping screws located under the bike assembly. One is located on each underside of the bike. This keeps the bike stable during transport or service. Raise both shipping screws all the way up without removing it completely out. This ensures safe keeping for future use.

Power Up Procedure

1. Plug the game line cord into an appropriately wired and fused AC receptacle.
2. Locate the game AC main switch to the bottom left side on back of the game cabinet.
3. Turn the switch to the ON position.
4. The game attract feature will begin after the game is finished loading- approximately 1 minute.
5. Proceed to Switch Test of this document and verify proper game operation.

Game Networking

NOTICE: To link the two games together, use the crossover cable provided in the spare parts bag. Use of another cable other than the one shipped with the game could void warranty or cause games not to link. Use network cables, which are at least CAT5 grade.

Networking Considerations

Each FNFSB game ships with a cross over cable for linking 2 games. Optionally, a hub and network patch cords can be installed to link 3 or more games.

Take care to protect exposed game wiring from general foot traffic around the game. Use a conduit or wire way to protect the cables as needed.

Please mark linking cables for your game if other such cables are in the vicinity to avoid confusion. Network cables are not marked or coded.

Avoid routing the network cables near sources of heat, moisture or electrical energy such as neon lights, compressor motors, transformers etc.

Networking Setup 2 Games

1. Remove the cross over network cable from the parts bag located inside the cashbox.
2. If you are linking two games connect each end of the cable to the network jack behind each PC.

3. Neatly route the cable through the notch on the back of the cabinet.
4. Use the Dipswitch diagram below for enabling link feature and master/slave configuration. The Dipswitch is located on the JAMMA I/O board. The JAMMA I/O board is mounted inside the back of the cabinet.
5. Reset all games simultaneously and verify that link is successful. If not, check the Dipswitch settings and make sure that the network cable is connected properly and secured. Please refer to the troubleshooting guide in this manual for more details.

DIP SWITCH DIAGRAM:

DIP SW#	SW1	SW2	SW3	SW4	SW5	SW6	SW7	SW8
Player1 / MASTER	OFF	OFF	OFF				*	ON
Player 2	ON	OFF	OFF				*	ON

Networking Setup 3 - 8 Games

1. Prepare network hub with enough ports and correct number of patch cables to support the number of games that you plan to link. Network hub and cables are not shipped with the games and are sold separately.
2. Connect each end of the cable to the network jack behind each PC.
3. Connect each of the opposite ends of the cables to the network hub. Please refer to the network hub manual for other networking considerations specific to your hub.

(Back of computer)

CONNECT NETWORK CABLE HERE

1. Neatly route the cable through the notch on the back of the cabinet.
2. Use the DIPswitch diagram below for enabling link feature and master/slave configuration. The DIPswitch is located on the JAMMA I/O board. The JAMMA I/O board is mounted inside the back of the cabinet.
3. Reset both games simultaneously and verify that link is successful. If not, check the DIPswitch settings and make sure that the network cable is connected properly and secured. Please refer to the Game Troubleshooting Guide on this manual for more details.
4. Reset all games simultaneously and verify that link is successful. If not, check the Dipswitch settings and make sure that the network cable is connected properly and secured. Please refer to the troubleshooting guide in this manual for more details.

Adjustments, Audits & Diagnostics

Locate the *Service Button Panel*. It is mounted inside the coin door area on top of the cash box vault. Press the **TEST** button to access the **Test Menu**.

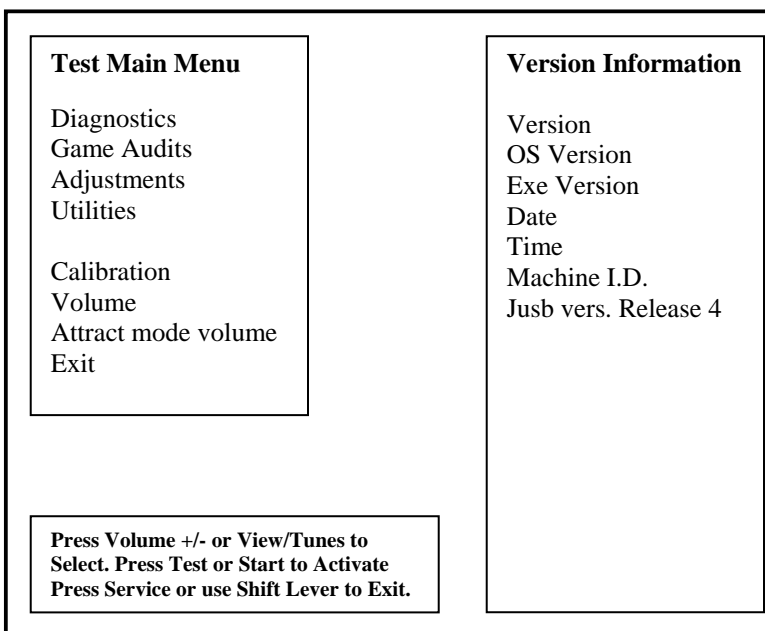

Menu Navigation:

Button	Action
Test	Enter Operator Screen
Start Button	Enter/Select Item Sub-Menu
Vol. (+) or View Button	Scroll up thru Menu items
Vol. (-) or Tunes Button	Scroll down thru Menu items
Service or Shift Lever	Exit to previous Menu

MAIN MENU

The **Test Main Menu** appears when the **TEST** button is pressed.

Diagnostics Menu System

From the **Main Menu**, select **Diagnostics** and enter to view options.

<p>Diagnostics Menu</p> <p><u>Switch Test</u> DIP Switch Test Sound Test Wheel Test Monitor Test Lamp Test LED Test Coin Meter Test Watchdog Test Exit</p>	<p>Diagnostics</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Switch Test

From the **Diagnostics** select and enter **Switch Test**. Verify proper switch input function using this menu. Each switch activated will be indicated on the test screen in corresponding yellow box and will be accompanied by a switch active sound indicator. Verify pot value for min, center and max are correct. If not, proceed to Calibration section of this manual. Press and hold the **Service Button** for three seconds to return to the **Diagnostics Menu**.

<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Coin Per Credit Menu

From the **Pricing Menu**, select **Coin per Credit Menu** and enter. Choose the number of coins required to earn one credit. One credit equals to one purchased game. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Coin Per Credit</p> <p>1 2 3 4 5 6 7 8 9 10</p> <p>Cancel</p>	<p>Credit Options</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Credit To Start Menu

From the **Pricing Menu**, select **Credit To Start Menu** and enter. Choose the number of credits required to start one game. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Credits to Start</p> <p>1 2 3 4 5 6 7 8 9 10</p> <p>Cancel</p>	<p>Credit Options</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Coin Per Credit To Continue Menu

From the **Pricing Menu**, select **Credit To Continue Menu** and enter. Choose the number of credits required to continue from the current game. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Credits to Continue</p> <p>1 2 3 4 5 6 7 8 9 10</p> <p>Cancel</p>	<p>Credit Options</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Free Play Menu

From the ***Adjustment Menu***, select ***Free Play*** and enter. Select whether the game should be in Free Play Mode. In this mode, simply pressing the Start button can start a game. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Free Play Activate?</p> <p>Yes No</p> <p>Cancel</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

1st Place Free Race Menu

From the ***Adjustment Menu***, select ***1st Place Free Race*** and enter. The player wins a free race for a 1st place overall finish during a single of networked race game. Press Start to Select. Use Shift lever or press Service to Exit.

<p>First Place Wins Free Race?</p> <p>Yes No</p> <p>Cancel</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Multi-play wins free race

From the ***Adjustment Menu***, select ***Multiplay Win Gets Free Race*** and enter. Winner of a networked game wins a free race if active. Default setting is No. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Multiplay 1st wins free race?</p> <p>Yes No</p> <p>Cancel</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit.</p>	

Start Time Bonus

From the ***Adjustment Menu***, select ***Start Time Bonus*** and enter. Select the amount of time in seconds given to the player to reach the first checkpoint. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Start Time?</p> <p>30 seconds 40 seconds 50 seconds 60 seconds 70 seconds 80 seconds 90 seconds 100 seconds 110 seconds 120 seconds</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Checkpoint Time Bonus

From the **Adjustment Menu**, select **Checkpoint Time Bonus** and enter. Select the amount of time in seconds given to the player to reach the next checkpoint after the first checkpoint is reached. Press Start to select. Use Shift lever or press Service to Exit

<p>Turn On Attract Mode Audio?</p> <p>Yes No</p> <p>Cancel</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Attract Audio menu

From the Adjustment menu, select **Attract Audio** and enter. Select whether audio is active while in attract mode. Press start to select. Use Shift lever or press Service to Exit.

<p>Turn on Attract Mode audio?</p> <p>Yes No</p> <p>Cancel</p>	<p>Preferences and adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Game Difficulty Menu

From the *Adjustment Menu*, select **Game Difficulty** and enter. The default difficulty level is 5. Press Start to Select. Use Shift lever or press Service to Exit.

From the **Adjustment Menu**, select **Speed Measurement** and enter. Select which unit is to be used to measure car speed. Choose MPH or Miles per Hour. Choose KPH or Kilometers per Hour. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Game Difficulty Level?</p> <p>1 Easier</p> <p>2</p> <p>3</p> <p>4</p> <p>5</p> <p>6</p> <p>7</p> <p>8</p> <p>9</p> <p>10 Harder</p> <p>Cancel</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Note:

Please reference the game Audit information to determine the appropriate difficulty setting for your location. Compare changes in game statistics and game revenue before and after the change.

Max Credits Menu

From the *Adjustment Menu*, select **Max Credits** and enter. Press Start to Select. Press Tunes or Service to Exit.

<p>Max Number Of Credits?</p> <p>10</p> <p>15</p> <p>20</p> <p>25</p> <p>30</p> <p>35</p> <p>40</p> <p>45</p> <p>50</p> <p>Cancel</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit.</p>	

Max Name Length Menu

From the ***Adjustment Menu***, select ***Max Name Length*** and enter. This refers to the number of allowable characters when entering player names. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Maximum Name length?</p> <p>3 4 5 6 7</p> <p>Cancel</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit.</p>	

Auto Pilot Menu

From the ***Adjustment Menu***, select ***Auto Pilot Available*** and enter. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Auto pilot available?</p> <p>Yes No</p> <p>Cancel</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

High Score Reset Menu

From the **Adjustment Menu**, select **Plays for High Score Reset** and enter. Select the number of plays before high score table is reset. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Plays For High Score Reset?</p> <p>1000 2000 2500 5000 7500 10000 12500 15000 17500 20000</p> <p>Cancel</p>	<p>Preference and Adjustments</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Utilities Menu

From the **Test Main Menu**, select **Utilities** and enter. The Utilities Menu contains tools, which the operator can use to manage game adjustments or reset key game and player score and statistic information. The option to perform a game factory restore can also be accessed.

<p>Utilities Menu</p> <p>CRC Check Clear Credits Clear Audits Reset High Scores Reset Player Stats Default Adjustments Factory Restore</p> <p>Cancel</p>	<p>Utilities</p> <p>Please note the following:</p> <p>Setting default adjustments or performing a factory restore will require calibration afterwards.</p> <p>A factory restore will perform all the resets listed at the left, clearing credits, audits, high scores, and player data.</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or use Shift lever to Exit</p>	

Note:

- Information will be permanently erased by Clear or Reset functions.
- It is often ideal to perform a factory restore when the game is being moved to a new location.
- Record your game audit information if performing any of the above functions.

CRC Check Menu

From the ***Utilities Menu***, select ***CRC Check*** and enter. Performing CRC check verifies the integrity of the software. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Really Perform CRC Check?</p> <p>Yes No</p> <p>Cancel</p>	<p>Utilities</p> <p>Please note the following:</p> <p>Setting default adjustments or performing a factory restore will require calibration afterwards.</p> <p>A factory restore will perform all the resets listed at the left, clearing credits, audits, high scores, and player data.</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or Shift to Exit</p>	

Clear Credit Menu

From the ***Utilities Menu***, select ***Clear Credits*** and enter. Performing Clear Credit will delete any remaining credits posted. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Really Clear Credits?</p> <p>Yes No</p> <p>Cancel</p>	<p>Utilities</p> <p>Please note the following:</p> <p>Setting default adjustments or performing a factory restore will require calibration afterwards.</p> <p>A factory restore will perform all the resets listed at the left, clearing credits, audits, high scores, and player data.</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or Shift to Exit</p>	

Clear Audit Menu

From the ***Utilities Menu***, select ***Clear Audit*** and enter. Performing Clear Audit will delete all audit information found on the Audit Menu. Please record them if you ever need to reference the information. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Really Clear Credits?</p> <p>Yes No</p> <p>Cancel</p>	<p>Utilities</p> <p>Please note the following:</p> <p>Setting default adjustments or performing a factory restore will require calibration afterwards.</p> <p>A factory restore will perform all the resets listed at the left, clearing credits, audits, high scores, and player data.</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or Shift to Exit</p>	

Clear High Scores Menu

From the ***Utilities Menu***, select ***Clear High Scores*** and enter. Performing Clear High Score will clear the all high score tables. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Really Clear High Scores?</p> <p>Yes No</p> <p>Cancel</p>	<p>Utilities</p> <p>Please note the following:</p> <p>Setting default adjustments or performing a factory restore will require calibration afterwards.</p> <p>A factory restore will perform all the resets listed at the left, clearing credits, audits, high scores, and player data.</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or Shift to Exit</p>	

Clear Player Stats Menu

From the **Utilities Menu**, select **Clear Player Stats** and enter. Performing Clear Player Stats will clear all player information, including PIN, car upgrades and money earned. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Really Clear Player Stats?</p> <p>Yes No</p> <p>Cancel</p>	<p>Utilities</p> <p>Please note the following:</p> <p>Setting default adjustments or performing a factory restore will require calibration afterwards.</p> <p>A factory restore will perform all the resets listed at the left, clearing credits, audits, high scores, and player data.</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or Shift to Exit</p>	

Default Adjustments Menu

From the **Utilities Menu**, select **Default Adjustment** and enter. Performing Default Adjustment setting will restore game adjustments back to its manufacturer recommended settings. The game will need to be re-calibrated. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Really Set Default Adjustments?</p> <p>Yes No</p> <p>Cancel</p>	<p>Utilities</p> <p>Please note the following:</p> <p>Setting default adjustments or performing a factory restore will require calibration afterwards.</p> <p>A factory restore will perform all the resets listed at the left, clearing credits, audits, high scores, and player data.</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or Shift to Exit</p>	

Factory Restore Menu

From the **Utilities Menu**, select **Factory Restore** and enter. Performing Factory Restore will restore game adjustments back to its manufacturer recommended settings and clear all audit information. The game will need to be re-calibrated. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Really Perform Factory Restore?</p> <p>Yes No</p> <p>Cancel</p>	<p>Utilities</p> <p>Please note the following:</p> <p>Setting default adjustments or performing a factory restore will require calibration afterwards.</p> <p>A factory restore will perform all the resets listed at the left, clearing credits, audits, high scores, and player data.</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or Shift to Exit</p>	

Calibration Menu

From the **Test Main Menu**, select **Calibration** and enter. Making sure that the seat and Throttle are properly calibrated is the easiest way to make sure that your motorcycle game can maximize its earning potential. Follow the screen instructions carefully. Verify proper calibration on the Switch Test screen. Check and make sure that the minimum, center and maximum values correspond to the actual position of the control.

Calibration	
<input type="checkbox"/>	Lean seat to center; then hit Test/Start
<input type="checkbox"/>	Lean seat left; then hit Test/Start
<input type="checkbox"/>	Lean seat right; then hit Test/Start
<input type="checkbox"/>	Roll Throttle and release; Then Hit Test/Start
<input type="checkbox"/>	Roll Throttle and release; Then Hit Test/Start
<input type="checkbox"/>	Hit Test/Start to Exit

Note:

- If the game requires constant re-calibration, check the controls for mechanical wear or damage. Replace if necessary.
- Normal wear and tear of the controls means that calibration should be part of the games scheduled maintenance.

Volume Menu

From the **Test Main Menu**, select **Volume** and enter. This refers to the game volume while in play. Use the Volume Up/ Volume Down button on the service panel to adjust volume level. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Volume</p>  <p>0 10 20</p>	<p>Volume Adjust</p> <p>Volume: 10/20</p> <p>Current Track: DNB</p>
<p>Press Volume +/- or View/Tunes to Select. Press Test or Start to Activate Press Service or Shift to Exit</p>	

Note:

- Adjusting the volume while in attract mode only affects the attract volume and the not the actual game volume.
- Adjustment to game volume must be done while on Volume Adjust screen or while on game mode.
- Adjust volume levels relative to location and environment.

Attract Volume Menu

From the **Test Main Menu**, select **Attract Volume** and enter. This refers to the attract mode volume. Use the Volume Up/ Volume Down button on the service panel to adjust volume level. Press Start to Select. Use Shift lever or press Service to Exit.

<p>Attract Volume</p>  <p>0 10 20</p>	<p>Attract Volume Adjust</p> <p>Volume: 10/20</p> <p>Current Track: DNB</p>
<p>Press Volume UP/DOWN to Adjust Press Test Button to Accept Press Service Button to Exit</p>	

TROUBLESHOOTING GUIDE

PROBLEM	POSSIBLE CAUSE	SOLUTION
Game will not power up	Game not plugged in.	Plug game into receptacle.
	Game not turned on.	Turn ON main power switch
	Game fuse is blown	Check game fuse.
	No power to receptacle.	Plug game into powered receptacle.
	PC power switch is OFF	Turn PC power switch ON.
	PC BIOS set wrong.	See Appendix B.
“No Signal” Message	Video cables not secure.	Check and secure video connector.
	PC not turned ON.	Turn ON power to PC.
No video display.	No power to video display.	Check power to video display.
		see <i>Game will not power up.</i>
No sound.	Audio cable not connected.	Check audio cable connection.
	Speaker not connected.	Check speaker connection.
“I/O Board Missing”	USB connector not connected.	Check USB connector from PC to I/O board. Perform Hard Drive Recovery
	Bad game power supply	Check for proper connection and voltage to i/o board. Replace cabinet power supply.
Game will not load.	New Hard Drive installed.	Power cycle by un-plugging game. Perform Hard Drive Recovery
	Hard Drive data corrupted.	Perform Hard Drive Recovery.
Game Freezes	Secure Dongle Loose	Secure and Tighten Dongle
	Poor Ventilation	Check Fan Operation and Airflow
	USB cable loose	Remove and Reinsert USB both ends of cable
	Failing or Bad Power Supply	Check Power Supply Output or Replace With Known Good.
	Corrupted Hard Drive	Perform CRC Check. Re-Image if bad.
Game resets.	Low DC voltage.	Check for proper voltage(+5V,+12V)
	Door lamp is wrong rating.	Use only 5volt lamps.
	Cabinet/PC temperature is too high.	Check that vents and fans are functioning and not obstructed.
	Hard Drive data corrupted.	Perform Hard Drive Recovery..
Not Linking	DIP Switch Set Wrong	Refer to Networking Setup Section.
	Network Cable Bad	Check Connection or Replace
	Game Operator Settings Not The Same.	Make Sure All Settings Are The Same Between Linked Games
Bike Controls Not Working	Bike not securely mated to monitor cabinet.	Secure bike to monitor cabinet using all 4 screws.
	Bike is not level with monitor cabinet	Move game to level surface or adjust leg leveler height as needed.
	Steering potentiometer Is loose	Secure connector firmly into potentiometer.
	Bad or Loose switch	Open fairing to access switches. Verify that switch and connections are good.
	Possible bad I/O board	Swap or replace I/O board
LEDs not responding (Speedometer, Brake, Tailpipes LEDs)	DB9 connectors on PC not secure.	Check DB9 connection and see items under “Bike Controls Not Working” of the Troubleshooting Section(above)
		Swap or replace speedometer board.
		Power Cycle Game.

Warning: Do not connect or disconnect any cables or connectors on this game with the power on. This could potentially damage the game.

Hard Drive Recovery

NOTICE: Fast and the Furious is shipped with a recovery compact disk. Hard drives have been known to occasionally fail for many reasons. Follow the procedure below to restore data on the hard drive if a disk failure should occur. Use extreme care when performing the following procedure and avoid rough handling of pc or CD. Please check the Troubleshooting Guide section of this document. Have the recovery CD ready before you begin.

The following are some symptoms, which may indicate a possible bad hard drive:

- Hard Drive Test reports “bad” or “missing” files. Please refer to Trouble Shooting section of the manual.
- The game fails to finish loading.
- A boot error is reported after game is power cycled or reset.
- The game is looking for a boot CD to be inserted.
- Erratic game or attract mode.

Note: It is important that the USB cable from pc and power is connected to the I/O board before you proceed.

Hard Drive Recovery Procedure:

1. Open the control panel to access the pc.
2. Press the button on the CD drive to open CD tray.
3. Carefully insert the recovery disk into the tray.
4. Press the button on the CD drive to close the CD tray.
5. Turn OFF the pc by pressing the power button once.
6. Turn ON the pc by pressing the power button once.
7. Disk recovery process will begin automatically.
8. A message at the top of the screen will prompt you to remove the disk when process is over. Press the CD drive button to open tray. Remove the recovery disk and store safely.
9. Turn OFF the pc by pressing the power button once.
10. Turn ON the pc by pressing the power button once.

Note: Do not interrupt power or reset the game during the following process!

11. The game will begin to initialize and load. It will typically take about five minutes to complete.
12. The hard drive recovery process is complete when the game enters attract mode.
13. Proceed with control calibration and make necessary game adjustments. Please refer to Setup and Test section of this manual.

-- End of Procedure--

Power Management Setting(BIOS)

NOTE:

Abrupt power cycling of the game should be avoided! Allow 5-10 seconds between turning the game OFF and then ON again.

Fast and Furious Super Bikes is shipped with the correct BIOS settings. Any changes made to the BIOS other than what is described below may adversely affect game functionality.

This BIOS setting allows the PC to automatically power up when AC power is detected. This eliminates the need to manually turn the PC ON after a power disruption.

Procedure:

1. Turn game *OFF*.
2. Connect a PS/2 or USB keyboard to the PC.
3. Hold the DELETE key while turning the PC *ON*.
4. On the **BIOS** menu screen, use the DOWN arrow to scroll down to **Power Management Setup**. Hit ENTER key once.
5. On the **Power Management Setup** menu, use the DOWN arrow to scroll down to **After AC Power Lost**.
6. Use the (+) button to change **After Power Lost** setting to: [**Power ON**].
7. Hit F10.
8. Hit Enter to Save and Exit.
9. PC will reset and begin to load game.

Please note that due to the PC power supply's safety feature which protects against damage due to power disruptions, it may be necessary to remove AC power from the game for a period of 5-10 seconds before the power supply becomes operational again.

Basic Display Adjustments

WARNING: Extremely high voltage is present on the monitor assembly. The monitor does not contain any user serviceable parts. Do not attempt to service the monitor.

The following are display settings, which you should become familiar with. It is important to note that settings may differ slightly between manufacturers and even between displays of the same manufacturers. Certain factors like age of the display could also be a factor. Therefore, the information below should only serve as a reference as actual settings may not be practical in most cases.

Setting	Adjustment
Brightness	Function: Background Brightness or Black Level. Set Level: Black background should appear dark and not gray.
Contrast	Function: Definition/ Sharpness of character against background. Set Level: Outer edges of character or text should not be distorted.
H-Position	Function: Horizontal Position. Side/side centering. Set Level: Picture should be centered from side to side.
H-Size	Function: Horizontal Size. Side/side dimension. Set Level: Picture should be full from side to side.
V-Position	Function: Vertical Position. Up/down centering. Set Level: Picture should be centered up and down.
V-Size	Function: Vertical Size. Up/down dimension. Set Level: Picture should be full from top to bottom.
Pin Cushion	Function: Degree of straightness along both vertical sides of the picture. Set Level: Both sides of the picture should be straight, without curvature.
Degauss	Function: De-magnetizes the picture tube when activated. This eliminates picture discoloration caused by magnetic disturbance around the picture tube.

Digital displays are adjusted using a button type remote adjust board. Below are functional diagrams for Neotec and Wells Gardner 27" digital displays:

Neotec Remote

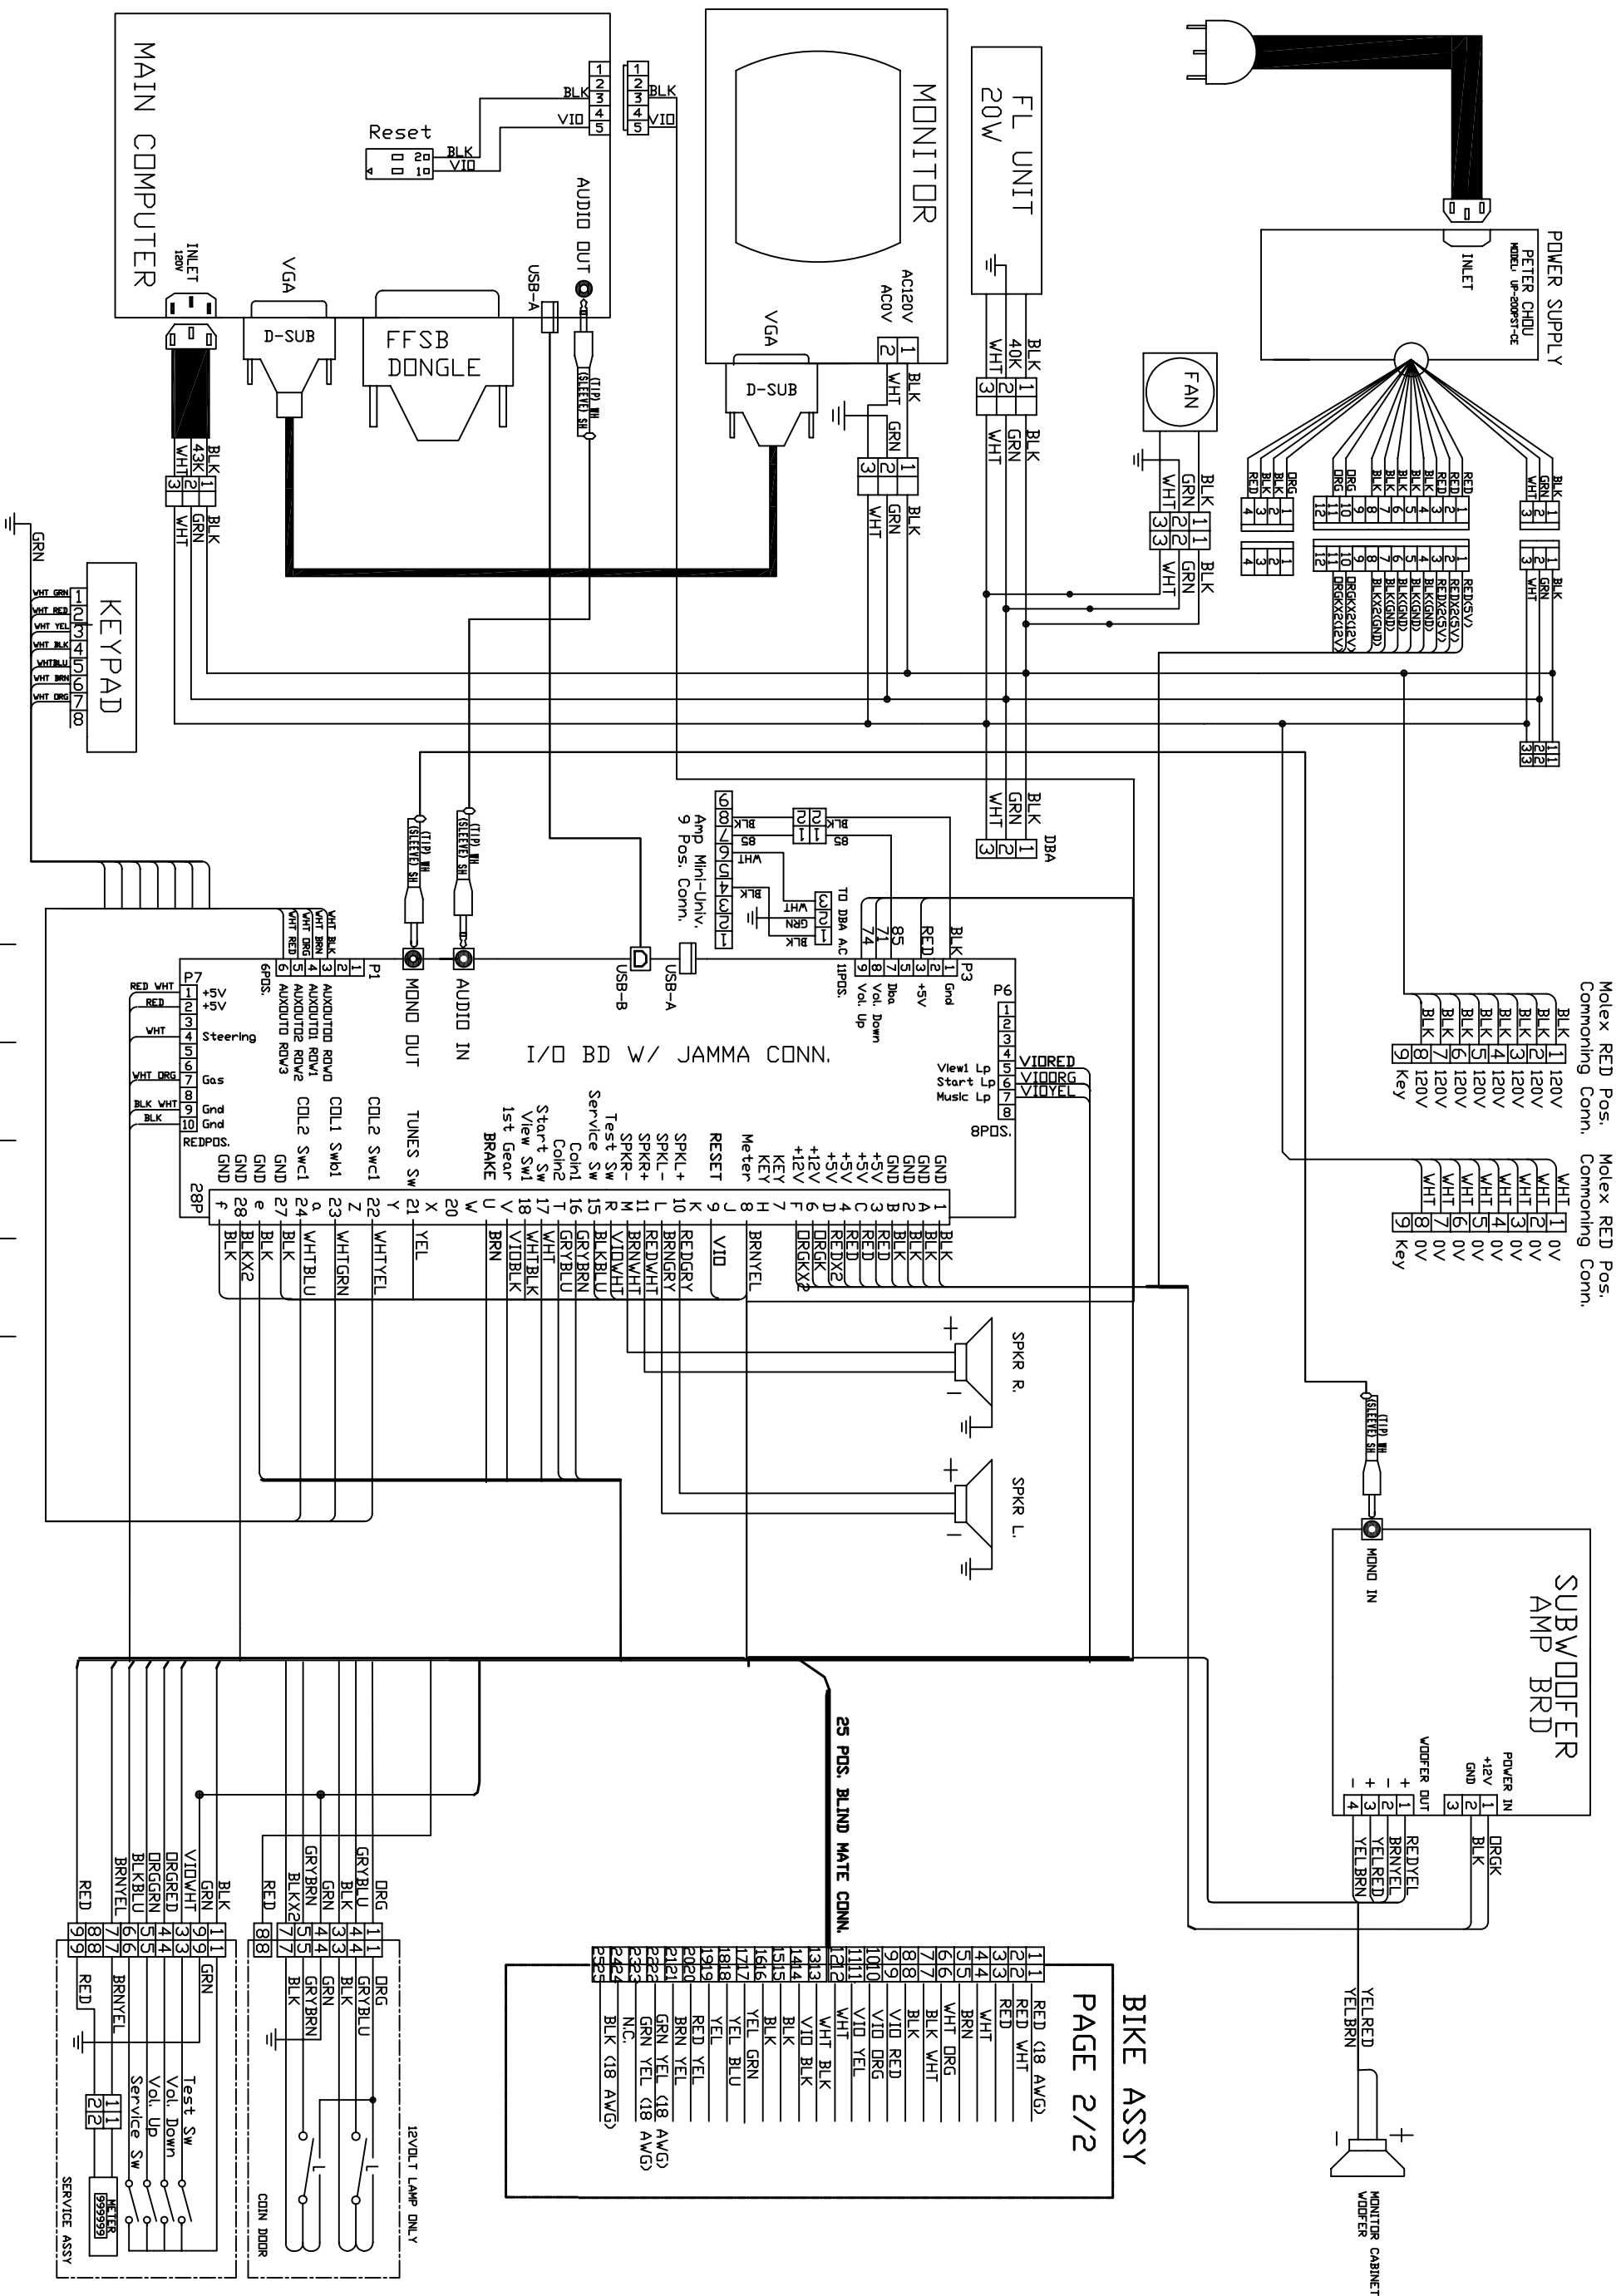

Menu: Open display adjustment menu.
Sel(-): Move down.
Sel(+): Move up.
Exit: Save changes and exit.

Wells-Gardner Remote

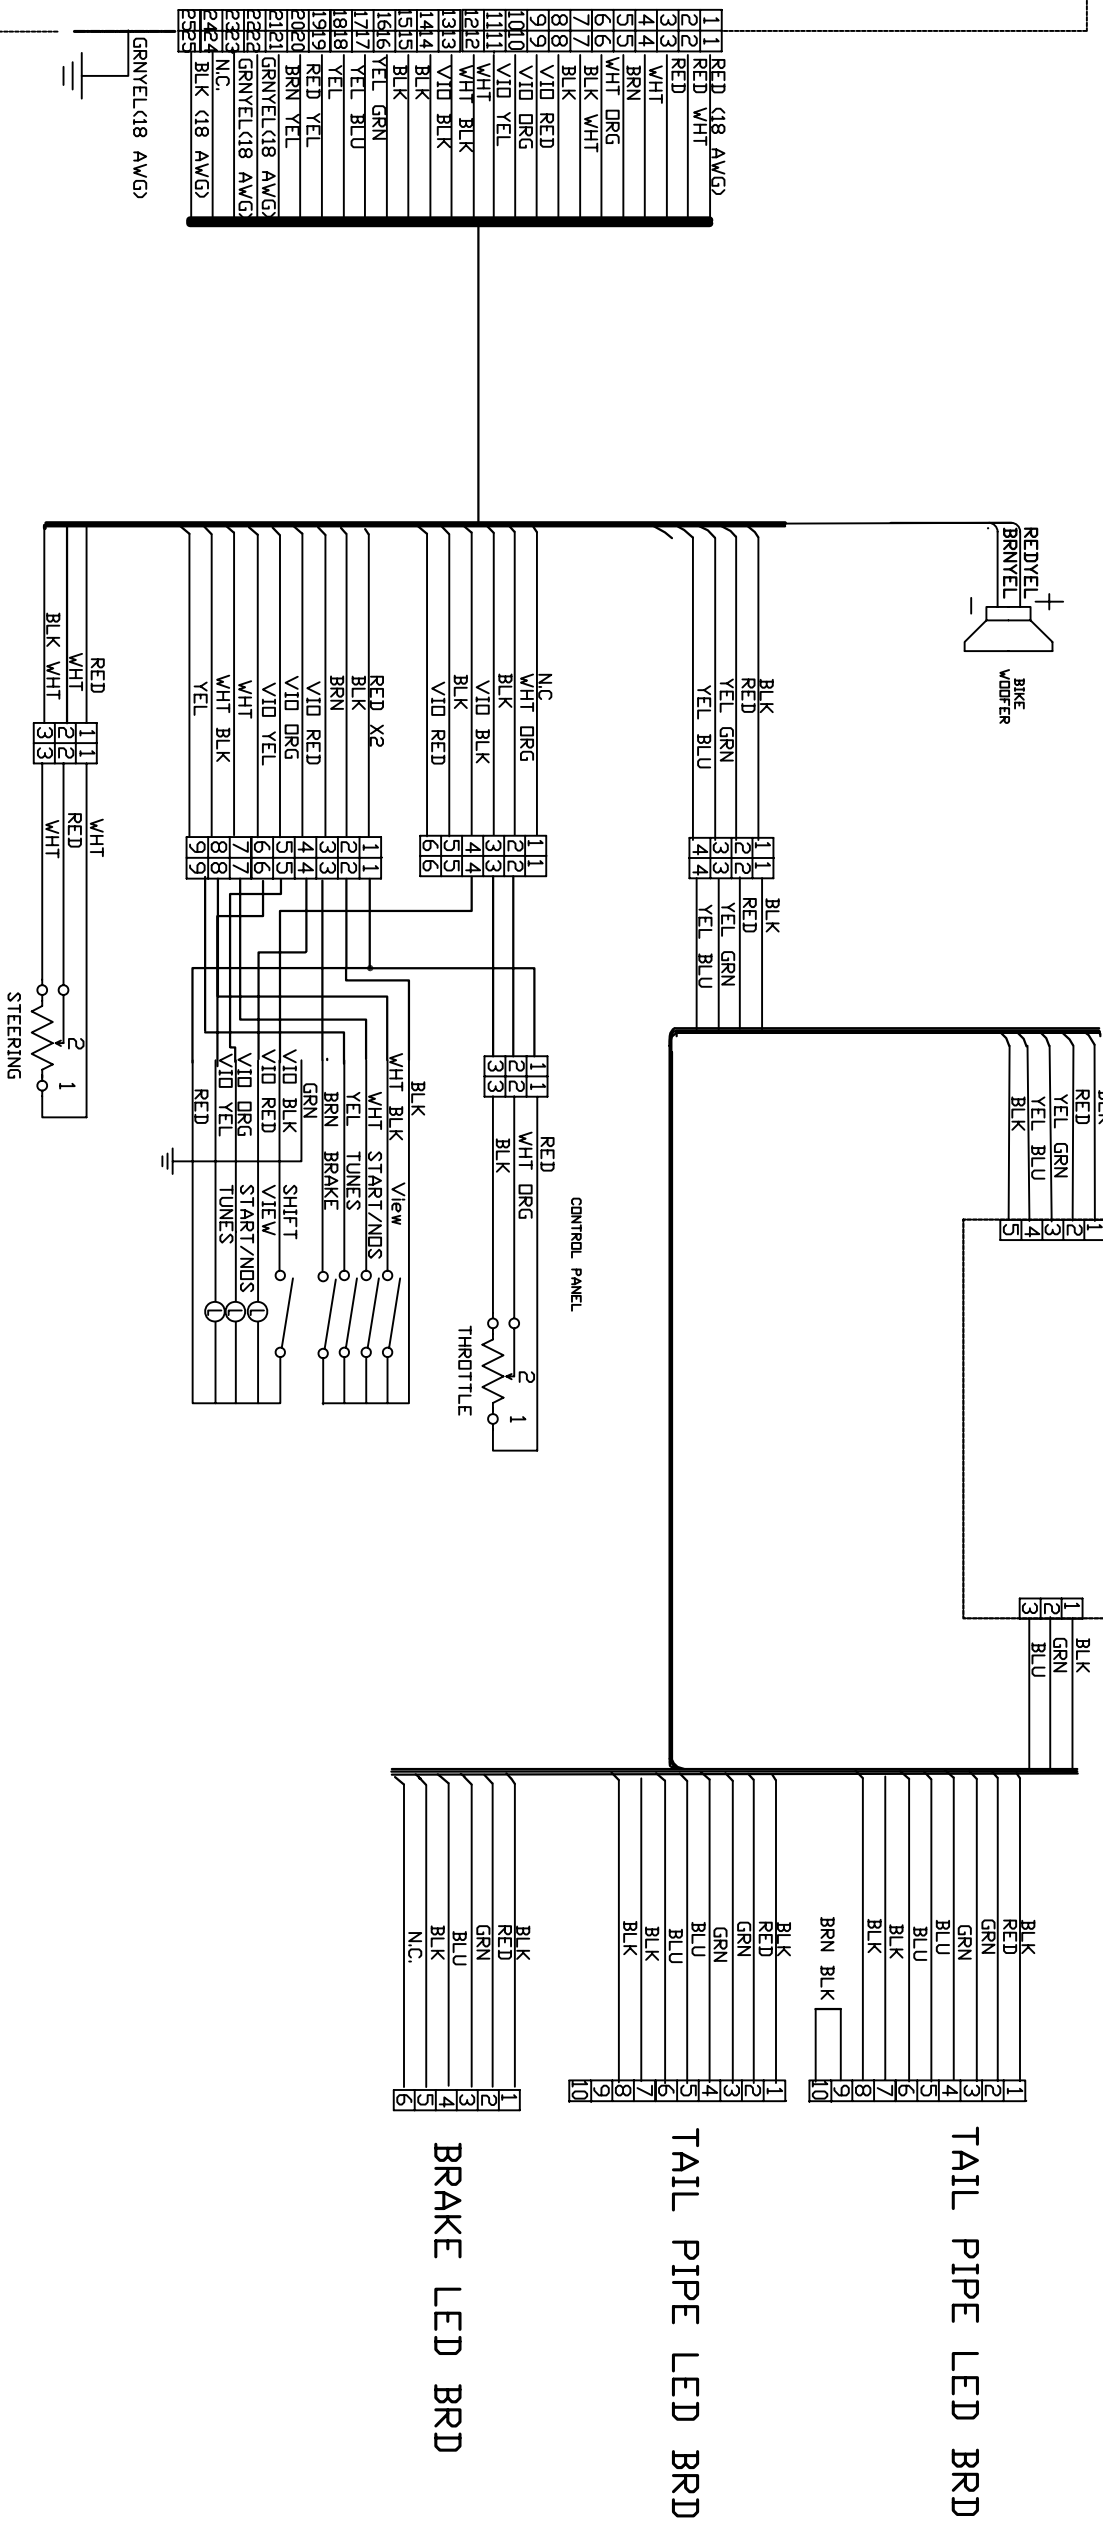

Down: Move down.
Up: Move up.
Select: Choose setting to adjust.
Mode: Exit to adjustment menu.

The motorcycle racing and riding experience in this video game is intended to be fanciful; do not try these moves in real life. Be a responsible rider. Riding a real motorcycle is an exercise in responsibility to yourself, to others and to the environment. A real motorcycle is not a toy and can be hazardous to operate. When riding a real motorcycle, wear an approved helmet and proper riding gear. Observe all state and local laws. Respect the rights of others. Ride within your capabilities, allowing extra time for maneuvering and braking. Never drink and ride. Read and follow all instructional materials that you receive with your motorcycle.
