Setup

Located inside the coin door are the coin and ticket meters, volume up and down buttons, service button, and test button. You can lower or raise the volume by pressing the UP and DOWN VOLUME buttons or set the volume through settings. To test play your game without adding to the coin meter, press the SERVICE button. To enter programming options, press the TEST button.

To navigate through the menus, press volume up and down to move to different options and press test to select that option.

Touch Screen - Calibration and Cleaning

When you have installed your game on location it is a good idea to enter programming and adjust the calibration. Doing so will ensure reliable operation at that location. If at anytime you upgrade the software to a newer version you should also enter programming and perform a calibration.

When cleaning your touch-screen monitor it is important to never use an ammonia based cleaner. Any non-ammonia based glass cleaner can be used to clean the screen. Always spray the glass cleaner on the cloth or towel and then clean the touch-screen.

WS1022	Ticket Bin (Single)

Warranty

I.C.E warrants all components in the **Buster Bubble** game to be free of defects in materials and workmanship for a period of ninety days from the date of purchase.

This warranty does not cover items damaged due to normal wear and tear, subjected to abuse, improperly assembled by the end user, modified, repaired, or operated in a fashion other than that described in the service manual.

If your **Buster Bubble** game fails to conform to the above mentioned warranty, I.C.E.'s sole responsibility shall be at its option to repair or replace any defective component with a new or remanufactured component of equal to or greater O.E.M. specification.

I.C.E. will assume no liability whatsoever, for costs associated with labor to replace defective parts, or travel time associated therein.

I.C.E.'s obligation will be to ship free of charge, replacement parts by domestic U.P.S. Ground, U.S. mail, or other comparable shipping means. Any express mail or overnight shipping expense is at the cost of the purchaser.

Products will be covered under warranty only when:

- The serial number of the game with the defective parts is given.
- The serial number of the defective part, if applicable, is given.
- A Detailed Description of the Equipment Fault Symptoms
- Defective parts are returned to I.C.E., shipping pre-paid, in a timely fashion, if requested by I.C.E.
- A copy of the sales receipt is available as proof of purchase upon request of I.C.E.

I.C.E. distributors are independent, privately owned and operated. In their judgment, they may sell parts or accessories other than those manufactured by I.C.E. We cannot be responsible for the quality, suitability, or safety of any non-I.C.E. part, or any modification, including labor, which is performed by such a distributor.

WARRANTY

ICE product, including Cromptons, Sam's Billiards, Uniana and Bell Fruit is warranted as follows:

- 180 days on the Main PCB and Computers
- 180 days on Motors
- 90 days on all other components (i.e. DBV's, Ticket Dispensers, etc)
- 30 days on repaired items
- 3 years on all Crane Harnessing
- 9 Months on Printers

ICE Inc shall not be obligated to furnish a warranty request under the following conditions:

- Equipment has been subjected to unwarranted stress through abuse or neglect
- Equipment has been damaged as a result of arbitrary repair/modification attempts
- Equipment that has failed through normal wear and tear

19" LCD panel, touch screen, and controller carry a limited 6 month warranty. This warranty covers only failures due to defects in materials or workmanship that occur in normal use. It does not cover damage that occurs in shipment, failures that are caused by products not supplied by ICE, Inc., failures that result from accident, misuse, abuse, neglect, water damage, mishandling, faulty installation, set-up adjustments, improper maintenance, alteration, line power surge, external product damage including field damage, modification or service not approved by ICE or damage that is attributable to acts of God. I.C.E. strongly recommends that the product be adequately packed to avoid shipping damage.

ICE Inc will assume no liability whatsoever for costs associated with labor to replace defective parts or travel time associated therein.

All defective warranty covered components will be replaced with new or factory refurbished components equal to OEM specifications. ICE Inc will cover all domestic UPS ground, or comparable shipping means, freight costs during the warranty period. Expedited shipments are available for an additional charge.

Defective parts are returned to ICE Inc, at the customer's expense, in a timely fashion.

ICE distributors are independent, privately owned and operated. In their judgment, they may sell parts and/or accessories other than those manufactured by ICE Inc. We cannot be responsible for the quality, suitability or safety of any non-ICE part, modification (including labor) that is performed by such a distributor.
